Congress has put forward major<br>incentives for states line North Carolina to expand health coverage those<br>who did not previously qualify for either Medicaid, or subsidiaries under<br>the ACA. Poverty is one of the most important factors affecting a child's<br>long term health and development.Fifty percent of Forsyth County youth live in poor or low-income homes.<br>Those who were earning the lowest wages before the pandemic have been<br>most likely to lose jobs and suffer long-term hardships.Many families are fighting new and increased stressors like job loss,<br>hunger, untreated health concerns, and isolation away from community<br>supports. Traumatic episodes like these are shown to have long-term<br>impacts on children's healthy development. |

Local match is<br>required in the amount of 30% for JCPC funds. JCPCs will need to<br>continue to ensure diversionary, restorative justice programming is<br>available in the county by FY 22-23. Forsyth County meets this restorative<br>justice requirement through the funding of Teen Court and Impact Circles<br>programs. Youth violence is also a continued concern.                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| SERVICES LISTED IN PREVIOUS RFP                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | SERVICES PROPOSED FOR FY 22-23 RFP                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
